# **I — INTRODUCTION**

The Report to the Congress on Voting Practices in the United Nations was first published in 1985, for the year 1984. This is the 30th edition. It is submitted in accordance with Section 406 of Public Law 101-246. This law provides, in relevant part:

“[T]he Secretary of State shall transmit to the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate a full and complete annual report which assesses for the preceding calendar year, with respect to each foreign country member of the United Nations, the voting practices of the governments of such countries at the United Nations, and which evaluates General Assembly and Security Council actions and the responsiveness of those governments to United States policy on issues of special importance to the United States.”

This report reviews voting practices in the UN Security Council and the 68<sup>th</sup> General Assembly (UNGA) in calendar year 2013, and presents data in a variety of formats. All Security Council resolutions for the calendar year are described, and voting on them is tabulated (Section II). The report also statistically measures the overall voting of UN member states at the 68<sup>th</sup> General Assembly in Fall 2013 in comparison with the U.S. voting record (Section III). It also lists and describes UNGA resolutions selected as particularly important to U.S. interests (Section IV), and lists these important votes again with tables for regional and political groupings (Section V). It then presents the voting patterns on General Assembly resolutions relating to Israel and opposed by the United States (Section VI). Lastly, it specifies how each country votes on all important votes (Section VII).

The Security Council and the General Assembly deal with a full spectrum of issues — including threats to peace and security, disarmament, economic and social development, humanitarian assistance, and human rights — that are considered critical to U.S. interests. A country’s behavior at the United Nations is always relevant to its bilateral relationship. Nevertheless, a country’s voting record in the United Nations is only one dimension of its relations with the United States. Bilateral economic, strategic, and political issues are at times more directly important to U.S. interests. Our embassies use the pertinent information in this report when engaging their host countries.

## **Format and Methodology**

The format and presentation of this report are consistent with provisions of Public Law 101-246 as amended by Public Law 108-447, and the methodology employed is the same as that used since the report’s inception.

The tables in this report provide a measurement of the voting coincidence of UN member countries with the United States. However, readers are cautioned to be careful in interpreting voting coincidence percentages. In Section III (General Assembly Overall Votes), Section IV (General Assembly Important Votes and Consensus Actions), and Section VII (Important Votes by Country), the percentages in the column of the tables titled “votes only,” are calculated using only votes on which both the United States and the other country in question voted Yes or No; not included are those instances when either country abstained or was absent. Abstentions and absences are often difficult to interpret, but they make a mathematical difference, sometimes significant, in the percentage results. The inclusion of the number of abstentions and absences in the tables of this report enables the reader to consider them in calculating voting coincidence percentages.

The percentages in the column of the table titled “including consensus” offer another perspective on General Assembly activity. Consensus resolutions indicate agreement with U.S. positions, so adding these to the vote totals more accurately reflects the extent of cooperation and agreement in the General Assembly. Since not all states are equally active at the United Nations, the report credits to each country a portion of the 200 consensus resolutions based on its participation in the 90 recorded Plenary votes. Each country’s participation rate was calculated by dividing the number of Yes/No/Abstain votes it cast in the Plenary (i.e., the number of times it was not absent) by the total number of Plenary votes. However, this calculation assumes, for want of an attendance record, that all countries were present or absent for consensus resolutions in the same ratio as for recorded votes.

Questions about this report may be directed to the Bureau of International Organization Affairs in the Department of State.

## II — SECURITY COUNCIL RESOLUTIONS AND STATEMENTS

The Security Council’s membership in 2013 consisted of the five permanent members — China, France, Russia, the United Kingdom, and the United States — and 10 non-permanent members: Argentina, Australia, Azerbaijan, Guatemala, Luxembourg, Morocco, Pakistan, Republic of Korea, Rwanda, and Togo. The following table summarizes the activity of the Security Council for the year and compares it with the previous 10 years.

YEAR	MEETINGS	RESOLUTIONS CONSIDERED	RESOLUTIONS ADOPTED	U.S. VETOES	PRESIDENTIAL STATEMENTS
2013	193	48	47	0	22
2012	199	55	53	0	29
2011	235	68	66	1	22
2010	210	59	59	0	30
2009	194	49	48	0	35
2008	244	66	65	0	48
2007	202	57	56	0	50
2006	272	89	87	2	59
2005	235	71	71	0	67
2004	216	62	59	2	48

In 2013, the Security Council adopted all but one of 48 resolutions it considered. It again was heavily engaged in efforts to resolve conflicts, and to give direction to UN peacekeeping missions. Much of the Security Council’s attention continued to focus on Africa and the Middle East.

### RESOLUTIONS AND STATEMENTS

Substantive resolutions formally considered by the Security Council during the year are listed and described below. They are grouped alphabetically by country or topic, and, within each group, by date. Each listing provides the number of the resolution, date of the vote, a brief description, and associated Internet resources. Each non-unanimous vote is noted (Yes-No-Abstain).

In 2013, one draft resolution failed to gain sufficient support to pass. On November 15, a draft resolution seeking to delay by one year International Criminal Court (ICC) proceedings against the President and Deputy President of Kenya garnered just seven votes in favor. While no UNSC member voted against the draft, eight members abstained, including the United States.

Forty-four resolutions were adopted by unanimous vote. Three resolutions were not approved unanimously. On January 24, Azerbaijan abstained on Resolution 2089, which extended the term of the UN Peacekeeping Force in Cyprus. On September 26, Russia abstained on Resolution 2117, concerning the illicit transfer of small arms and light weapons. And on December 18, Russia abstained on Resolution 2130, pertaining to extension of terms for members of The International Criminal Tribunal for the Former Yugoslavia.

## COUNTRY AND REGIONAL RESOLUTIONS

The official record of all Security Council actions in 2013 is available in chronological order here: <http://www.un.org/en/sc/documents/resolutions/2013.shtml>.

### AFRICA

S/2013/660 (November 15) — This draft resolution sought a one-year delay in International Criminal Court (ICC) proceedings against the President and Deputy President of Kenya. Because just seven members voted in favor while eight abstained, it failed to win Security Council approval. (For a resolution to pass, at least nine affirmative votes are required, and none of the five Permanent Members can vote against it.)

Azerbaijan, China, Morocco, Pakistan, Russia, Rwanda, and Togo voted in favor of the draft text. Argentina, Australia, France, Guatemala, Luxembourg, Republic of Korea, United Kingdom, and the United States abstained.

The U.S. position was that, since the Assembly of States Parties to the Rome Statute, which oversees the ICC's administration, would meet the following week, and since the Court and the Assembly were appropriate venues for addressing Kenya's concerns and those of the African Union, the United States had abstained instead of vetoing the draft.

2127 (December 5) — Demanded swift implementation of existing transitional arrangements leading to free, fair, and transparent presidential and legislative elections.

Decided that any attempt to delay, impede or violate those transitional arrangements should be considered an impediment to the peace process, and could lead to imposition of measures, including targeted travel bans and asset freezes, against individuals undermining the peace, stability, and security, or by violating the arms embargo established by this resolution.

Demanded that all parties to the conflict, particularly the former Seleka, ensure rapid, safe, and unhindered access of humanitarian organizations and relief personnel and the timely delivery of humanitarian assistance.

Decided (with some exceptions) that, for an initial period of one year, all member states should immediately take necessary measures to prevent the direct or indirect supply, sale, or transfer to the CAR of arms and related materiel of all types, and technical assistance, training, financial or other assistance, related to military activities.

Authorized all member states to, and that all member states should cooperate, upon discovery of prohibited items, seize, register, and dispose of items prohibited by this resolution.

Decided to establish a UNSC Committee to monitor member state implementation of the measures imposed above, to strengthen, facilitate, and improve them, and to examine and take appropriate action on information regarding alleged violations or non-compliance with the specified measures.

Called on the Secretary-General to establish an international commission of inquiry for one year to investigate reports of violations of international humanitarian law, international human rights law and abuses of human rights in the CAR. The Commission was charged with compiling information to help identify the perpetrators of these violations and abuses, and to help ensure that those responsible are held accountable.

2101 (April 25) — Extended the arms embargo, plus financial and travel measures, until April 30, 2014. Further refined the sanctions regime, and included exemptions for supplies intended solely for the support of or use by the UN Operation in Côte d'Ivoire (UNOCI) and French forces supporting them. The resolution also exempted non-lethal military equipment intended solely for humanitarian or protective use, and arms and other related weaponry to the Ivoirian security forces, intended solely for the support of or use in security reform.

Urgently called for continued engagement in consultation with the UNFICYP on demarcating the buffer zone, and on the UN 1989 aide-mémoire, to reach early agreement on outstanding issues.

Azerbaijan abstained because it claimed the text contained outdated language and factual inaccuracies.

Web Resource: UNFICYP

2114 (July 30) — Extended the mandate of UNFICYP through January 31, 2014. Azerbaijan and Pakistan abstained.

Acknowledged the work parties are doing to prepare for the negotiation of a comprehensive and durable settlement; urged continuation of discussions to agree on core issues. Urgently called for continued engagement in consultation with the UNFICYP on demarcating the buffer zone, and on the UN 1989 aide-mémoire, to reach early agreement on outstanding issues.

Pakistan cited general problems with the resolution while Azerbaijan abstained because the resolution did not provide a proper update of the situation on the ground and criticized it for failing to highlight access granted to the Committee for Missing Persons to the north of the island.

The brigade was to include three infantry battalions, plus artillery and a special force and reconnaissance company. Its mission was to carry out targeted operations to "neutralize and disarm" the notorious 23 March Movement (M23), as well as other Congolese rebels and foreign armed groups in the eastern part of the country.

Authorized MONUSCO to protect civilians, "neutralize" armed groups (using the intervention brigade), monitor implementation of the arms embargo, and provide support to national and international judicial processes. Expressed its willingness to consider further action, based on additional information, against those involved in drug trafficking and organized crime in Guinea-Bissau. Urged that civilian and military officials in Guinea-Bissau show greater commitment to combat drug trafficking effectively.

Web Resource: [UNIOGBIS](#)

2103 (May 22) — Decided to extend the mandate of UNIOGBIS until May 31, 2014. Revised the mandate to facilitate the return to constitutional order. Under the readjusted mandate, UNIOGBIS would help Guinea-Bissau create an environment conducive to holding free, fair and transparent elections, while helping to strengthen democratic institutions, including those concerned with law enforcement and human rights.

2124 (November 12) — Extended the mandate of AMISOM to October 31, 2014. Expressed serious concern that recent security gains against Al-Shabaab were at serious risk of being reversed. Requested the African Union to increase AMISOM’s maximum troop strength from 17,731 to 22,126 uniformed personnel. Decided to expand the logistical support package for AMISOM for a maximum of 22,126 uniformed personnel until October 31, 2014. Expressed concern at continuing violations of the Security Council charcoal ban, and requested the Secretary-General and his Special Representative to raise awareness among relevant member states of their obligation to abide by the ban.

2125 (November 18) — Removed, from the arms embargo on Somalia, supplies of weapons and military equipment or the provision of assistance destined for the sole use of member states, international, regional, and subregional organizations who continue to cooperate with Somali authorities in the fight against piracy and armed robbery at sea. Renewed for 12 months the authorizations granted to states and regional organizations cooperating with Somali authorities in the fight against piracy and armed robbery at sea off the coast of Somalia, for which advance notification would be provided by Somali authorities to the Secretary-General.

Noted that the joint counter-piracy efforts of the international community and private sector had resulted in a sharp decline in pirate attacks and hijackings since 2011, but emphasized that without further action that progress was reversible.

## SOUTH SUDAN

Authorized the appropriate transfer of troops, force enablers, and multipliers from other missions, in particular MONUSCO, UNAMID, UNISFA, UNOCI and UNMIL, in order to reach the new levels of troops and police within the overall troop ceiling on a temporary basis.

## SUDAN

2091 (February 14) — Extended the mandate of the Panel of Experts that monitors the arms embargo and sanctions against those impeding peace in Sudan until February 17, 2014. Expressed concern that some technical assistance to Sudan could be used for military purposes by the government.

Expressed its intention to impose targeted sanctions against individuals affiliated with the Government of Sudan and armed groups in Darfur who continue to commit violence against civilians, impede the peace process, and disregard the demands of the Council.

2104 (May 29) — Extended the mandate of the UN Interim Security Force for Abyei (UNISFA) until November 30. Increased the troop presence in Abyei from 4,200 to 5,326 peacekeepers, as requested by Sudan and South Sudan.

Demanded that all parties involved provide humanitarian personnel with full, safe, and unhindered access to civilians in need of assistance and all necessary facilities for their operations.

## SYRIA

2118 (September 27) — Strongly condemned any use of chemical weapons in the Syrian Arab Republic, in particular the attack on August 21, 2013, in violation of international law. Decided that Syria shall not use, develop, produce, otherwise acquire, stockpile, or retain chemical weapons, or transfer, directly or indirectly, chemical weapons to other states or non-state actors.

Decided that Syria shall comply with all aspects of the decision of the Organization for the Prohibition of Chemical Weapons (OPCW) Executive Council of September 27, 2013, which contained special procedures for the expeditious destruction of Syria's chemical weapons program and its stringent verification, and called for its full implementation in the most expeditious and safe manner. Decided that Syria shall cooperate fully with the OPCW and the United Nations, including by complying with their relevant recommendations, by accepting personnel designated by the OPCW or the United Nations, by providing for and ensuring the security of activities undertaken by these personnel, by providing these personnel with immediate and unfettered access to and the right to inspect, in discharging their functions, any and all sites, and by allowing immediate and unfettered access to individuals that the OPCW has grounds to believe to be of importance for the purpose of its mandate, and decides that all parties in Syria shall cooperate fully in this regard.

Decided to review regularly the implementation in Syria of the decision of the OPCW Executive Council of September 27, 2013, and this resolution.

Demanded that non-state actors not develop, acquire, manufacture, possess, transport, transfer, or use nuclear, chemical or biological weapons and their means of delivery, and called upon all member states, in particular those neighboring Syria, to report any actions inconsistent with this paragraph to the Security Council immediately.

Decided that all member states shall prohibit the procurement of chemical weapons, related equipment, goods and technology or assistance from Syria by their nationals, or using their flagged vessels or aircraft, whether of Syrian origin or not.

Decided, in the event of non-compliance with this resolution, including unauthorized transfer of chemical weapons, or any use of chemical weapons by anyone in Syria, to impose measures under Chapter VII of the UN Charter.

Presidential Statement 2013/15 (October 2) — Stressed that the magnitude of the humanitarian tragedy in Syria required immediate action to facilitate safe and unhindered delivery of humanitarian assistance in the whole country; urged all parties, in particular the Syrian authorities, to take all appropriate steps to facilitate the efforts of the United Nations, its specialized agencies and all humanitarian actors engaged in humanitarian relief activities, to provide immediate humanitarian assistance to the affected people in Syria; and urged the Syrian authorities to take immediate steps to facilitate the expansion of humanitarian relief operations, including through promptly facilitating safe and unhindered humanitarian access to people in need, through the most effective ways, including across conflict lines and, where appropriate, across borders from neighbouring countries in accordance with the UN guiding principles of humanitarian emergency assistance.

## THEMATIC RESOLUTIONS

### INTERNATIONAL TRIBUNAL FOR THE FORMER YUGOSLAVIA (ICTY)

2130 (December 18) — Extended terms of office for 17 permanent and *ad litem* judges of the ICTY until December 31, 2014, or sooner depending upon completion of the cases assigned to them. All members approved the measure except Russia, which abstained because it claimed the Tribunal's exit strategy had not improved and trial delays continued.

### PEACEKEEPING

2086 (January 21) — Asserted a central UN role in peacekeeping. Stressed the need for integrated assessment and planning from the inception of a peacekeeping mission, making sure to take advantage of existing expertise and experience. Recognized that missions may be tasked, among many things, to assist security sector reforms, help national governments to conceive and develop programs to disarm, demobilize, and reintegrate warring factions, and to protect civilians.

### SMALL ARMS

2117 (September 26) — With Russia abstaining, expressed grave concern that the illicit transfer, destabilizing accumulation and misuse of small arms and light weapons posed threats to international peace and security, caused significant loss of life, contributed to instability and insecurity and continued to undermine Security Council effectiveness discharging its primary duty to maintain international peace and security. Called on member states subject to Council-mandated arms embargoes to implement and enforce the embargo. Reaffirmed its decision that states must eliminate the supply of weapons, including small arms and light weapons, to terrorists.

Russia said it abstained because the text did not declare the transfer of small arms and light weapons to non-state actors to be unacceptable.

### TERRORISM

2129 (December 17) — Extended the operation of the Counter-Terrorism Committee Executive Directorate (CTED) as a special political mission until December 31, 2017, while remaining under the policy guidance of the Counter-Terrorism Committee. Strongly condemned incidents of kidnapping and hostage-taking committed by terrorist groups for any purpose. Expressed deep concern at the increase in such kidnappings, and underscored the urgent need to address the issue.

### WOMEN, PEACE AND SECURITY

2106 (June 24) — The United States drafted this resolution, which affirmed that sexual violence, as a method or tactic of war, or as a part of a widespread or systematic attack against civilians, can significantly exacerbate and prolong situations of armed conflict, and may impede the restoration of international peace and security. Emphasized that effective steps to prevent and respond to such acts significantly contribute to the maintenance of international peace and security. Stressed the essential role of women's participation to any preventative and protective response.

2122 (October 18) — The United States and the United Kingdom co-sponsored this resolution, which recognized the need for consistent implementation of UNSC Resolution 1325

(2000) in its own work, and intended to focus more attention on women's leadership and participation in conflict resolution and peacebuilding. Recognized the need for timely information and analysis on the impact of armed conflict on women and girls, the role of women in peacebuilding and the gender dimensions of peace processes and conflict resolution involving the Security Council's agenda.

Expressed intent to increase its attention to women, peace, and security issues in all relevant thematic areas of work on its agenda, including in particular protection of civilians in armed conflict, post-conflict peacebuilding, the promotion and strengthening of the rule of law in the maintenance of international peace and security, peace and security in Africa, threats to international peace and security caused by terrorist acts, and maintenance of international peace and security.

Reiterated its intent, when establishing and renewing the mandates of UN missions, to include provisions on the promotion of gender equality and the empowerment of women in conflict and post-conflict situations, including through the appointment of gender advisers as appropriate, and further expressed its intent to include provisions to facilitate women's full participation and protection in: election preparation and political processes, disarmament, demobilization and reintegration programs, security sector and judicial reforms, and wider post-conflict reconstruction processes where these are mandated tasks within the mission.

### III — GENERAL ASSEMBLY: OVERALL VOTES

#### VOTING COINCIDENCE WITH THE UNITED STATES

This section contains a table of the Plenary votes that were recorded at the fall session of the 68<sup>th</sup> UN General Assembly. In those 90 Plenary votes, the United States voted Yes 37 times (41 percent) and No 46 times (51 percent); it abstained on 7 votes (8 percent). It was not absent for any vote.

All General Assembly members voted during the session. The United States did not vote No by itself on any resolution in 2013.

The United States voted No with three other countries five times (Resolutions 68/24, 68/39 [partial vote], 68/46, 68/150, and 68/158). The other countries were Kiribati, North Korea, and Palau once; Canada, France, and Russia twice; and Israel and the United Kingdom three times.

The United States voted No with two other countries twice (Resolutions 68/96 and 68/97): with Israel and the United Kingdom each time.

The United States voted No with one other country three times (Resolutions 68/8, 68/88, and 68/200): on each occasion, Israel was the other country.

On non-consensus issues, i.e., those on which a vote was taken, the average overall General Assembly voting coincidence of all UN members with the United States in the 2013 session of UNGA 68 was 48.4 percent. This was 5.9 percentage points above the 2012 figure of 42.5 percent. Additionally, when the figures for the 18 anti-Israel votes are removed from the totals, the coincidence with U.S. votes rises to 60.6 percent.

When consensus resolutions are factored in as votes identical to those of the United States, a much higher measure of agreement with U.S. positions is reached – 86.0 percent, up slightly from 83.9 percent in 2012.

#### TABLE SHOWING COMPARISON WITH U.S. VOTES

The table that follows is based on the 83 instances the United States voted either Yes or No in Plenary. Columns show the number of times the United States and the pertinent country cast identical (Yes/Yes or No/No) and opposite (Yes/No or No/Yes) votes, as well as the number of times a country abstained or was absent for these 83 votes. Voting coincidence percentages are derived by dividing the number of identical votes by the total of identical plus opposite votes, the same method used in all previous editions of this report. The percentages in the column of the table titled “including consensus” offer another perspective on General Assembly activity. Consensus resolutions indicate agreement with U.S. positions, so adding these to the vote totals more accurately reflects the extent of cooperation and agreement in the General Assembly. Extent of participation was also factored in (see Introduction: Format and Methodology).

All countries are listed alphabetically.

Key:

Votes Only = Coincidence percentage only for the 84 GA votes where the United States voted Yes or No.

Votes + Consensus = Coincidence Percentage for the 84 GA votes where the United States voted Yes or No plus a pro-rated portion of all consensus resolutions.

## IV — GENERAL ASSEMBLY: IMPORTANT VOTES AND CONSENSUS ACTIONS

Public Law 101-246 calls for, with respect to plenary votes for the UN General Assembly, a listing of “votes on issues which directly affected important United States interests and on which the United States lobbied extensively.” An important basis for identifying issues is their consistency with the State Department’s Strategic Goals. For the 68<sup>th</sup> UN General Assembly (UNGA) in 2013, 11 votes and 20 consensus resolutions were identified for inclusion in this section.

Section IV contains three parts: (1) a listing and description of the 11 important UNGA votes; (2) a listing and description of the 20 important UNGA consensus resolutions; (3) voting coincidence percentages with the United States on these important actions that were adopted by votes, arranged alphabetically by country (with each country’s overall voting coincidence rate from Section III listed alongside the rate for important votes).

### IMPORTANT VOTES

The following 11 important votes are identified by title, resolution number, date of vote, and results (Yes-No-Abstain), with the U.S. vote noted. For each vote, a short description of the issue and U.S. policy considerations is provided. Where available, hyperlinks to additional explanatory material, as well as official U.S. statements, are provided. The resolutions are listed chronologically. Full texts of all resolutions can or will be found on the United Nations website, at: <http://www.un.org/en/ga/68/resolutions.shtml>. In the left-hand column, all resolutions are listed numerically. Where underscored, resolution numbers are linked to their texts. (Some resolutions were not yet linked by the submission date of this report.)

## VI — GENERAL ASSEMBLY RESOLUTIONS RELATED TO ISRAEL OPPOSED BY THE UNITED STATES

Public Law 101-246, as amended by Public Law 108-447, calls for a separate listing of all Plenary votes cast by UN member states in the General Assembly on resolutions specifically related to Israel that are opposed by the United States. For the 68<sup>th</sup> UN General Assembly in 2013, 18 resolutions met the criteria.

This section contains two parts: (1) a listing and description of the Israel-related votes at the 68<sup>th</sup> UNGA in which the United States voted No, and (2) voting coincidence percentages with the United States on all 18 resolutions, alphabetically by country.

The following 18 resolutions are identified by a short title, document number, date of vote, and results (Yes-No-Abstain), with the U.S. vote noted. All resolutions are or will be available here:

<http://www.un.org/en/ga/68/resolutions.shtml>

These annual General Assembly resolutions condemning Israel are repetitive, disproportionate, and one-sided. Israel is repeatedly singled out for criticism, while the resolutions do not fully acknowledge that all parties to the conflict bear direct responsibility for ending it. The following hyperlinks address the U.S. position on the situation in the Middle East and/or directly address the votes discussed:

- [Remarks by President Barack Obama to the General Assembly](#)
- [The Question of Palestine and the United Nations](#)

The resolutions are listed by the order in which they were approved by the General Assembly.

1. Committee on the Exercise of the Inalienable Rights of the Palestinian People  
*A/Res/68/12 November 26 110-7(US)-56*  
The General Assembly established this Committee in 1975, and renews its support annually. Voting with the United States: Australia; Canada; Israel; Marshall Islands; Micronesia; and Palau.

2. Division for Palestinian Rights of the Secretariat  
*A/Res/68/13 November 26 108-7(US)-59*  
The General Assembly established the Division for Palestinian Rights in 1977. It renews its support annually. Voting with the United States: Australia; Canada; Israel; Marshall Islands; Micronesia; and Palau.

Web Resource: [Division for Palestinian Rights of the Secretariat](#)

3. Special information program on the question of Palestine of the Department of Public Information of the Secretariat

*A/Res/68/14*

*November 26*

*163-7(US)-7*

The General Assembly established the Special Information Program by Resolution 32/40 B (1977). The United States believes that the continuation of this Program embodies institutional discrimination against Israel, and is inconsistent with UN support for the efforts of the Quartet to achieve a just and durable solution. (The Quartet is a group comprised of the United States, the United Nations, the European Union, and Russia.)

Voting with the United States: Australia; Canada; Israel; Marshall Islands; Micronesia; and Palau.

4. Peaceful settlement of the question of Palestine

*A/Res/68/15*

*November 26*

*165-6(US)-6*

Since 1967, the General Assembly has continually adopted resolutions about resolving the Israeli-Palestinian conflict. While the United States agrees with the necessity of achieving a peaceful settlement to the conflict and that both parties need to fulfill their obligations implementing the Road Map, the United States believes that the resolution is one-sided in its criticism of Israel. The resolution also states how issues should be resolved, while the United States believes these issues should be resolved between the parties through negotiations.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

5. Jerusalem

*A/Res/68/16*

*November 26*

*162-6(US)-8*

The General Assembly has adopted a resolution concerning Jerusalem every year since 1967. The United States believes that the final status of Jerusalem should be resolved by the parties to the conflict as part of a final, permanent status resolution that also includes the status of borders, refugees, and settlements.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

6. The Syrian Golan

*A/Res/68/17*

*November 26*

*112-6(US)-58*

The General Assembly has adopted a resolution concerning the Syrian Golan every year since 1967. The United States believes this resolution prejudices the outcome of final-status negotiations, and that Israel and Syria should resolve the issue of the Syrian Golan through negotiations. Additionally, the United States believes Syria should halt its support for terrorist organizations, including Hizballah.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

7. The risk of nuclear proliferation in the Middle East

*A/Res/68/65*

*December 5*

*169-5(US)-6*

A resolution on this issue was first adopted by the General Assembly in 1979. This resolution is biased, dealing solely with expressions of concern about Israel's activities, without reference to other questions regarding the problem of nuclear proliferation in the region. For the second year in a row, there was a large voting shift on this resolution: Votes in favor of the resolution increased by almost 60 compared to 2012, while abstentions dropped by more than 50 votes. This reversed the movement of votes from 2011 to 2012.

Voting with the United States: Canada; Israel; Micronesia; and Palau.

8. Persons displaced as a result of the June 1967 and subsequent hostilities

*A/Res/68/77*

*December 11*

*170-6(US)-6*

Following the June 1967 hostilities, the General Assembly has consistently adopted a resolution concerning displaced persons. The United States believes that the parties to the conflict should resolve the issue of displaced persons through final-status negotiations among themselves.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

9. Operations of the UN Relief and Works Agency (UNRWA) for Palestine Refugees in the Near East

*A/Res/68/78*

*December 11*

*170-6(US)-6*

The General Assembly established UNRWA in 1949 by Resolution 302 (IV). The United States believes that singling out Israel, without taking into account the context of Israel's actions, is not useful in settling the Israeli-Palestinian conflict. The United States also believes that extraneous issues in a resolution that renews UNRWA's mandate are not appropriate.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

Web Resource: [UNRWA](#)

10. Palestine refugees' properties and their revenues

*A/Res/68/79*

*December 11*

*172-6(US)-5*

The General Assembly established the UN Conciliation Commission for Palestine in 1948. Among other tasks, the Commission is mandated to facilitate the repatriation, resettlement, and economic and social rehabilitation of the Palestinian refugees and their compensation. The United States believes that the parties to the conflict should resolve the issue of properties and their revenues through final-status negotiations.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

Web Resource: [Conciliation Commission for Palestine](#) (pp. 21-25)

11. Work of the Special Committee to Investigate Israeli Practices Affecting the Human Rights of the Palestinian People and Other Arabs of the Occupied Territories

*A/Res/68/80*

*December 11*

*95-8(US)-75*

The General Assembly established the Special Committee by Resolution 2443 (XXIII) in 1968. The United States believes that this committee embodies institutional discrimination against Israel, that it should be abolished, and actively lobbies other countries to withdraw their support for the annual resolution that renews the Committee's mandate.

Voting with the United States: Australia; Canada; Israel; Marshall Islands; Micronesia; Palau; and Panama.

Web Resources: [2012 Human Rights Report: Israel and the occupied territories](#); [Special Committee](#) [GA Resolution 2443 (XXIII)]; [Report of the Special Committee to Investigate Israeli Practices Affecting the Human Rights of the Palestinian People and Other Arabs of the Occupied Territories](#) (Click on "English" tab)

12. Applicability of the Geneva Convention relative to the Protection of Civilian Persons in Time of War, of 12 August 1949, to the Occupied Palestinian Territory, including East Jerusalem, and the other occupied Arab territories

*A/Res/68/81*

*December 11*

*169-6(US)-7*

The General Assembly first adopted this resolution in 1973. The United States believes that this resolution singles out Israel, isolates it for criticism, and implicitly prejudices the outcome of final-status negotiations.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

Web Resource: [Geneva Convention IV: Protection of Civilian Persons in Time of War](#)

13. Israeli settlements in the Occupied Palestinian Territory, including East Jerusalem, and the occupied Syrian Golan

*A/Res/68/82*

*December 11*

*167-6(US)-9*

Since 1967, the General Assembly has continually adopted resolutions about resolving the Israeli-Palestinian conflict. The United States considers this resolution to be an unbalanced assessment of Israeli settlements in the territories. The United States believes that singling out Israel, without taking into account the context of Israel's actions, is not useful in settling the Israeli-Palestinian conflict.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

14. Israeli practices affecting the human rights of the Palestinian people in the Occupied Palestinian Territory, including East Jerusalem

*A/Res/68/83*

*December 11*

*165-8(US)-5*

Since 1967, the General Assembly has repeatedly adopted resolutions about resolving the Israeli-Palestinian conflict. The United States believes that the provision concerning the preservation of territorial integrity should be decided between the parties, not in a UN resolution. Also, the United States believes that singling out Israel's actions and ignoring those of the Palestinians is not useful in settling the Israeli-Palestinian conflict.

Voting with the United States: Australia; Canada; Israel; Marshall Islands; Micronesia; Palau; and Panama.

15. Global efforts for the total elimination of racism, racial discrimination, xenophobia and related intolerance and the comprehensive implementation of and follow-up to the Durban Declaration and Program of Action

*A/Res/68/151*

*December 18*

*134-11(US)-46*

Since the original Durban Declaration in 2001, implementation of its Program of Action has included displays of intolerance and anti-Semitism, which the United States does not believe should be commemorated. The United States is fully committed to upholding the human rights of all individuals, and to combat racial discrimination, intolerance, and bigotry. It stands ready to work with all partners to uphold human rights and fight racism around the world.

Voting with the United States: Australia; Canada; Czech Republic; France; Germany; Israel; Marshall Islands; Nauru; Palau; and United Kingdom.

Web Resource: [Statement by Ambassador Susan E. Rice on International Day of Commemoration in Memory of the Victims of the Holocaust](#)

16. The right of the Palestinian people to self-determination

*A/Res/68/154*

*December 18*

*178-7(US)-4*

The General Assembly first adopted this resolution in 1994. The United States does not object to the Palestinian people's right of self-determination, but believes that renewing this resolution is unhelpful in resolving the Israeli-Palestinian conflict. It does not facilitate the U.S.-

endorsed vision of a two-state solution. This vision can only be achieved through direct negotiations between the parties, not by UN resolutions.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; Nauru; and Palau.

17. Oil Slick on Lebanese Shores

*A/Res/68/206*

*December 20*

*169-5(US)-4*

This resolution was first passed in 2006, after thousands of tons of oil spilled into the Mediterranean Sea when Israeli air strikes damaged the El-Jiyah power plant during the Israel-Hizballah conflict that summer. The United States regrets the pollution of the Lebanese shores. However, this recurring resolution is unbalanced because it fails to acknowledge that the terrorist group Hizballah provoked the conflict. It remains inappropriate for the General Assembly to take a position on Israel's responsibility for compensating Lebanon.

Voting with the United States: Australia; Canada; Israel; Micronesia; and Palau.

18. Permanent sovereignty of the Palestinian people in the Occupied Palestinian Territory, including East Jerusalem, and of the Arab population in the occupied Syrian Golan over their natural resources

*A/Res/68/235*

*December 20*

*168-6(US)-9*

The General Assembly first adopted this resolution in 1994. While not objecting to the Palestinian people's right of self-determination, the United States believes that renewing this resolution is unhelpful in resolving the Israeli-Palestinian conflict. It does not facilitate the vision of a two-state solution, which the United States has endorsed. This vision can only be achieved through direct negotiations between the parties, not UN resolutions.

Voting with the United States: Canada; Israel; Marshall Islands; Micronesia; and Palau.

## **COMPARISON WITH U.S. VOTES**

The table that follows summarizes UN member state voting records at the Fall session of the 68th General Assembly in comparison with the 18 votes related to Israel for which the United States voted No. In these tables, "Same" is the total number of times the United States and the listed state both voted Yes or No on these issues. "Opposite" is the total number of times the United States voted Yes and the listed state No, or the United States voted No and the listed state Yes. Abstentions and absences are recorded but omitted from coincidence percentage calculations. "Coincidence with U.S." is derived by dividing the number of identical votes by the sum of identical plus opposite votes, expressed as a percentage.

The 2013 coincidence rate with the United States on anti-Israel votes was 3.6 percent, down slightly from 3.7 percent in 2012, 4.1 percent in 2011, and 4.4 percent in 2010.

Of the 18 anti-Israel resolutions where the United States and Israel voted No, only 11 other countries cast even a single vote with them. Canada and Palau voted with them on all 18 resolutions. Micronesia did so on 17, and the Marshall Islands on 16.

## VII — GENERAL ASSEMBLY: VOTING SUMMARIES BY COUNTRY

This presents voting information on important votes by country for the fall 2013 session of the 68<sup>th</sup> UN General Assembly for all 192 members (except the United States). The countries appear in the alphabetical order by which they are seated at the General Assembly. Thus, the Democratic People's Republic of Korea is listed under "D," the Republic of Korea under "R," The Former Yugoslav Republic of Macedonia under "T," and the United Republic of Tanzania under "U." The Democratic Republic of the Congo, formerly Zaire, is listed under "D." Congo (Brazzaville) remains under "C." Burma, which changed its name to Myanmar and is so designated at the United Nations, is listed under "M." Ivory Coast, which changed its name to Côte d'Ivoire, appears under "C." Cape Verde now appears as Cabo Verde. Each country listing contains the following:

- Summary coincidence percentages drawn from Sections III and IV. These percentages are derived by the same methodology used for overall Plenary votes, i.e., identical votes divided by the sum of identical and opposite votes. Abstentions and Absences are not included, nor are consensus resolutions.
- Vote totals in the Plenary and on the 11 important Plenary votes. Note that only the 83 votes where the United States voted Yes or No are calculated. The seven votes for which the United States abstained are not included in the calculations.
- The percentages for the category titled "including consensus" offer another perspective on General Assembly activity. Consensus resolutions indicate agreement with U.S. positions, so adding these to the vote totals more accurately reflects the extent of cooperation and agreement in the General Assembly. Since not all states are equally active at the United Nations, the statistic reflects, for each country, a portion of the consensus resolutions based on its participation in the 90 recorded Plenary votes. Each country's participation rate was calculated by dividing the number of Yes/No/Abstain votes it cast in the Plenary (i.e., the number of times it was not absent) by the total number of Plenary votes). However, this calculation assumes, for lack of an attendance record, that all countries were present or absent for consensus resolutions in the same ratio as for recorded votes.
